-

PROFESSIONAL EXPERIENCE

Bahrain Public Prosecution | Senior ICT Specialist

Apr 2026 - Present

Responsibilities

- Lead ICT transformation initiatives covering core prosecutors' systems, forensic systems, governance, source control, release management, and AI-enabled solutions.
- Define delivery governance, requirements, vendor coordination, reporting, escalation, and implementation controls across strategic ICT projects.
- Mentor junior ICT staff by providing technical guidance, reviewing deliverables, and supporting knowledge transfer across projects.

Achievements

- Implemented portfolio, program, and project governance for approvals, reporting, and escalation.
- Implemented Azure DevOps for source control, CI/CD, releases, deployments, and change control.
- Delivered a monitoring platform for servers, systems, and services health with incident alerts.
- Delivered a 3D crime scene reconstruction system with LiDAR models and AI-assisted analysis.
- Delivered an Android ADB Triage tool for extracting and parsing key forensic artifacts.
- Delivered an AI media pipeline for captioning, categorization, transcription, translation, and reports.
- Delivered an Attorney General AI dashboard with case insights and natural-language data queries.

Bahrain Public Prosecution | Senior Digital Forensics Analyst

Feb 2025 - Apr 2026

Responsibilities

- Supported digital forensics capability setup, including lab readiness, evidence workflows, SOPs, tool procurement, and implementation planning.
- Prepared technical specifications, evaluation criteria, and process documentation for forensic systems, infrastructure, and operational workflows.

Achievements

- Contributed to establishing the Digital Forensics Laboratory from planning through pilot readiness.

Bahrain Institute of Pearls and Gemstones (DANAT) | Full Stack Developer

Jun 2024 - Feb 2025

Responsibilities

- Supported Salesforce CRM implementation activities by aligning data, workflows, user requirements, and process changes.
- Maintained and enhanced solutions built using Next.js, FileMaker, and system integrations to support internal operations.

Achievements

- Developed and supported internal business applications using Next.js, FileMaker, and integrations across finance, HR, procurement, and operations.

Bahrain Airport Services | Software Developer, Project Manager

Oct 2021 - May 2024

Responsibilities

- Managed the planning, coordination, and delivery of IT projects across OCC, POS, Cargo, billing, e-signature, and operational systems.
- Developed .NET applications and integrations for scheduling, resource management, billing automation, and operational reporting.

Achievements

- Developed .NET applications and integrations for scheduling, resource management, billing automation, and operational reporting.
- Delivered automation, DevOps, and BI solutions generating over 27,000 BHD in documented savings.
